Session: 03

SUMMARY OF INFORMATION:

There are people at this site. The people are small in relation to the structure. The structure has a comfortable temperature. There is a bright area and a dark area. There is a horizontal bottom. There is something diagonal on the side of something else. There is a beeping sound at the site and a countdown.

There is activity at the site. At the same time when something happens, there is smoke and a smoky smell at the site. This also may be associated with an angle that reminds me off a fish. The small thing that flashed by (last session) is bright and long.
